Programming & Tech: C++, JavaScript, HTML/CSS, React.js, Git/GitHub

Core Competencies: Strategic Planning, Team Leadership, Stakeholder Management, Data-Driven Decisions

WORK EXPERIENCE

Co-Founder & Product Lead | MeSan Mentorship

Oct 2025 – Present

- Led a cross-functional team of **12** members to build and launch a education and mentorship platform, generating **INR 1.65 Lakhs** in revenue within the initial phase.
- Conducted market research and analyzed user data using **Python** and **Advanced Excel** to define target demographics.
- Led product lifecycle management using **React.js** and **Remix**, aligning technical solutions with business needs.
- Streamlined internal workflows and reduced manual operational errors, improving overall team efficiency.

PROJECTS

Go-To-Market Strategy & Consumer Growth | Ziddi Krunch – MuscleBlaze

Jan 2026 – Feb 2026

- Developed a digital-first go-to-market strategy for Ziddi Krunch | MuscleBlaze, a high-protein snack brand targeting a **150M+** health-conscious consumer market through Quick Commerce (Blinkit, Zepto) and D2C channels.
- Identified and addressed “sweet fatigue” among protein consumers by designing India-centric savory flavor positioning (Ziddi Masala, Peri-Peri), while optimizing pricing and profitability at **INR 50 MRP** with **~60%** gross margins.
- Built a subscription-led growth and cross-sell strategy to convert existing low-frequency whey protein customers into high-frequency weekly snack subscribers, targeting a **15%** conversion uplift.

Strategic Operations & Procurement Plan | Roastery Coffee House

Feb 2026 – March 2026

- Formulated a finance and procurement integration strategy to support the aggressive scaling of a bootstrapped cafe chain from **16** to **50** locations, targeting **212%** growth by **2027**.
- Designed a **90-day** implementation plan featuring a tiered Procure-to-Pay (P2P) approval workflow and a proprietary tracking app (ROAST-TRAC) to mitigate revenue leakage.
- Optimized working capital through standardized vendor payments and spend consolidation, projecting a **5-10%** COGS reduction and driving emergency purchases down from **25%** to the **10%** industry benchmark.

EV Charging Network Optimization Platform | SocBiz – OP Analytics

May 2026 – June 2026

- Developed an end-to-end AI system using **Python** and **Machine Learning** to optimize EV charging network operations through demand forecasting, dynamic pricing, and real-time monitoring.
- Built a Demand Prediction Agent using **Scikit-learn** and **Pandas** to forecast charging demand from historical utilization, temporal, and station-level features.
- Designed a Dynamic Pricing Engine that adjusts charging tariffs based on predicted demand, charger utilization, time-of-use periods, and congestion patterns.
- Implemented a Monitoring Agent and an interactive **Streamlit** dashboard with **Plotly** for real-time visualization of demand trends, pricing recommendations, revenue impact, and station health.
- Achieved a **16.44%** increase in projected revenue by comparing AI-driven dynamic pricing against baseline static pricing across more than **2.1 million** charging records.

POSITION OF RESPONSIBILITY

Marketing Executive | Cognizance IIT Roorkee

Nov 2024 – Present

- Led a 32-member marketing and sponsorship team for **Cognizance 2026**, driving brand outreach and partnership negotiations to secure 7 corporate sponsors and strategic partners.
- Managed stakeholder engagement for the annual technical fest, handling a footfall of **10,000+** participants.
- Analyzed attendee feedback using **Excel** to identify engagement gaps and formulate data-driven marketing strategies.
- Implemented process improvements that resolved real-time logistical issues, increasing overall event participation.

Events Manager | Student Technical Council IIT Roorkee

Feb 2026 – Present

- Directed a cross-functional team of **30** executives to spearhead **15+** large-scale technical fests and hackathons, driving a cumulative participation of **5000+** students.
- Managed an operating budget of INR **12** Lakhs and implemented targeted promotional strategies, securing key corporate sponsorships and boosting overall event footfall by **45%**.

Marketing Executive | IIT Roorkee Motorsports

Jan 2025 – Present

- Led a **11**-member marketing and sponsorship outreach, negotiating brand partnerships to secure funding for team projects and barter deal of BMS from **Tesla**.
- Developed targeted promotional campaigns, increasing team visibility and engagement across digital platforms.

Member | CRY - Child Rights and You

India | ***Feb 2025 – Jan 2026***

- Organized community awareness campaigns with diverse volunteer teams to advocate for inclusive education goals.
- Facilitated community-building initiatives reaching **500+** individuals, improving public speaking and collaboration skills.
